

## Helping Catholic Educators Bridge the Gap Between Challenge and Opportunity

Reading • Language • Mathematics • Science • Social Studies

TERRANOVA<sup>3</sup>

*TerraNova*<sup>®</sup>, *Third Edition* is a breakthrough assessment solution that builds on one of America's most innovative and respected standardized achievement tests, and helps Catholic schools and dioceses meet high expectations for student success.

### ***TerraNova* Supports Catholic Educators by:**

- Informing instruction with data that highlight students' strengths and weaknesses
- Delivering easy-to-understand reports for parents and community leaders
- Linking student scores to instructional activities
- Featuring content that is engaging and relevant
- Aligning to common curriculum goals and College and Career Readiness (CCR) Standards used throughout the nation

### **Reinforcing Parent and Community Support**

Enhance parent communication about student performance. *TerraNova 3* Reports can also supplement community outreach in your school or diocese and improve student learning.

### **Assessing Cognitive Abilities and Skills for Academic Success**

InView™ tests can be administered in conjunction with *TerraNova 3* to reliably measure skills such as understanding verbal and quantitative concepts, and analyzing and comprehending relationships between verbal and nonverbal stimuli. Combined InView and *TerraNova 3* reporting is provided when both tests are administered.

You can count on *TerraNova 3* to help your classroom teachers and enable your students to demonstrate what they truly can do.

---

## Count on *TerraNova, Third Edition* to Improve Student Achievement

- 1. ALIGNMENT:** *TerraNova 3* aligns assessment and reporting content with state standards and the framework of the College and Career Readiness (CCR) Standards. You can count on *TerraNova 3* to inform instruction and improve student learning.
- 2. RELEVANCE:** *TerraNova 3* features engaging and contemporary test content that motivates students to perform. *TerraNova 3* also delivers comparisons of student performance using representative 2011 norms. You can count on *TerraNova 3* to learn how your students are progressing toward standards, performing relative to their peers.
- 3. ACTIONABLE INFORMATION:** *TerraNova 3* integrates assessment and reporting options seamlessly and translates data into information your Catholic educators and diocesan leaders can easily use to improve instruction. Reports show student results and include links to valuable instructional activities. You can count on *TerraNova 3* to provide you with options for both standard and customizable reports.
- 4. FLEXIBILITY:** Meet your assessment goals by choosing the appropriate test format for your students. *TerraNova 3* provides numerous options to suit your needs: Multiple Assessments, Complete Battery, and Survey. You can count on *TerraNova 3* to match your assessment blueprint.

**5. QUALITY:** Rigorous test construction standards validate each item to ensure that *TerraNova 3* measures what is intended without embedded cultural bias. Research professionals, from Data Recognition Corporation | CTB, also ensure that the test measures a wide range of skills and proficiency levels. You can count on *TerraNova 3* to help your classroom teachers and enable your students to demonstrate what they truly can do—so you can make informed decisions about students' instructional needs.

## Scoring and Reporting in Time to Make a Difference

All data can be accessed in our web-based, Online Reporting System. With the Online Reporting System, educators can sort, rank, aggregate, and disaggregate data to see trends in student achievement. Reports can be formatted as PDFs or exported into a CSV format for merging with other school systems. DRC|CTB also offers more than 30 comprehensive and diagnostic paper reports including the Premier Home Report that has a Translation Guide for parents in 10 languages.
