

Individual Record Sheet

Directions:

- 1 Complete the identifying information.
- 2 Determine the number-correct score for each subject by following the "Standard Rules for Scoring" in Part 1 of the *InView* Norms Book. Enter the number-correct score for each subtest.
- 3 Use the appropriate table in the Norms Book to convert the subtest number-correct scores to scale scores. Follow the directions given in the Norms Book for determining the scale score for the Nonverbal Total, the Verbal Total, and for the Total Test.
- 4 Scale scores may be converted to age or grade percentile ranks and stanines by referring to the appropriate tables in the Norms Book. The scale score for the total test may also be converted to the Cognitive Skills Index (CSI) by referring to the appropriate table in the Norms Book.

Name _____
 Teacher _____
 School _____
 Grade _____

Test Level _____
 Test Date _____
 Birth Date _____
 Chronological Age _____ (years) _____ (months)
